CAREER OBJECTIVE

Enthusiastic and dedicated fresher with a keen interest in React JS development seeking to join your team. Eager to leverage my coding skills, problem-solving abilities, and passion for front-end development to contribute to high-quality web applications and enhance my professional growth.

WORK EXPERIENCE

Food delivery app

FirstBuy [code](#) [live-site](#)

📅 January 2024 - March 2024

- Developed a responsive web application using React JS
- Implemented dynamic routing, state management and using Context API
- Utilized RESTful APIs to fetch and display data
- Designed a user-friendly interface with modern JavaScript (ES6), HTML5 and CSS3 techniques
- Wrote clean, functional code on the front-end
- Conducted thorough testing and debugging to ensure optimal performance
- Enhanced application performance with code splitting and lazy loading and using tailwind CSS
- Integrated Firebase for Manage Users
- Ensured data protection and security best practices
